UNCERTAINTY THE FEATURE OF THE STOCK MARKET.

PRICES BOBBED UP AND DOWN ALL DAY.

Amalgamated Copper Still Shows Signs of Distress-Interest on Call Loans Increase.

New York, Dec. 10.-There was a dearth of news in to-day's stock market, except as had to do with the personality of the operators and the interests they were supposed to represent. The well-defined move-ments of the day, embracing the general market, were limited to the upward rush of prices at the opening and the sudden reof the day the market was sluggish and fr-regular, and traversed its narrow range of prices a number of times in a totally in-consequent and dublous manner. The opening burst of strength was the natural momentum of yesterday's late strong re-covery, belated bears rushing to buy, but it soon became manifest that the short init soon became manifest that the short interest had become much reduced by yesterday's hurried covering, and there was no strong disposition manifested to extend commitments on the long side. The eccentric course of Amalgamated Copper threw the market into renewed confusion. After rising to 72%, there was open selling by the brokers whose buying had been a strong influence in yesterday's rally in the stock, as they are credited with usually acting for inside interests in Amalgamated Copper. The consequence was that the stock commenced to sag again in an irregular way until it had dropped down to 62. The price then worked its way upward, with occasional reactions, to a high level of 73%, representing a recovery of 19 points from Saturday's low level for the stock. The general level of prices was affected by all of these fluctuations, but only to a moderate extent, the effect being more to discourage operations, whether for the long or short account. became manifest that the short in-

American Car, Hocking Ccal, People's Gas, possolidated Gas and International preferred.

The tone of the money market was much quieter during the day and there seemed a sufficient supply at 5½ to 6 per cent, but late in the day belated borrowers caused a flurry to 8 per cent by their urgent efforts to cover their wants, and the stock market made an immediate response, the whole list dropping suddenly to the lowest of the day on greatly increased dealings. Amalgamated Copper fell back to 6½ and closed with a net loss of about a point. St. Paul and Manhattan fell rapidly, the former decilining 2½. There was no effectual rally in the market and the closing was heavy at about the lowest. The sterling exchange market continued depressed, and there is not much likelihood of sold exports while money rates hold stiff. A deposit at the Subtreasury of \$500,000 for transfer to New Orieans shows the interior pressure for funds. The heavy profit-taking for the day in the grain and cotton markets gave hope of some money-market relief by liquidation in that quarter. The heavy withdrawals from the Government on account of the surplus gives cause for uneasiness, and there was general expectation during the day that the Secretary of the Treasury would announce the immediate payment of the Government's January interest as a measure of relief. The announcement of action in this marter came too late to help the market to-day. The railroad bonds were quite diversified, but the price movement was irregular. Total sales, par value, #110,000. United States bonds were all unchanged on the last call.

NEW YORK CURB MARKET.

7th AND LOCUST STREET close was also dull, and final prices reflected firmness in spite of some irregularity in quotations. Total transactions were estimated at about 12,000 shares. American Can issues showed improvement to-day after yesterday's slump. Can common sold from 16 to 16% on sales of 25,000 shares, and the preferred sold from 57% to 61 and later back to 50 shares. Northern securities sold at 10%, 610ct, 500 shares. United Rational and the sold at 10%, 610ct, 500 shares. United Rational and the sold at 10%, 610ct, 500 shares. United Rational and the sold at 10%, 610ct, 500 shares. United Rational and the sold at 10%, 610ct, 500 shares. United Rational and Foundry shares were in better demand than of late, especially the common, on reports that the small rates now paid on the latter may be increased. There was also talk that new interests have bought a moderate representation

ST. LOUIS COUNTY PARAGRAPHS

Marriage Heenses were insued in Ciayton yesterday to George W. Tompkins and Anna L. Gulbor of St. Louis, Samuel Tyler of No. 308 Olive street and Lottie Jewell of No. 2021 Forest avenue, and to Edward Lowther of No. 522 Page avenue and Mary McAuliffe of No. 2536 St. Louis avenue. The latter couple were married by Judge Brouster. Lowther is a street car conductor and said that he and his wife had decided to keep their marriage a secret until after the first of the year, when they would go to housekeeping. Until that time, he said, they would live apart. He refused to state his reason for wanting the matter kept quiet.

The saving of a few cents on a bottle of Vanila Extract will not alone for the annoyance of having dessert that is "just a little off" in flavor. Always buy Bursett's.
